

Abdulrahman Fawzy Taha

MERN stack developer

✉ abdulrahman.fawzy25@gmail.com ☎ +201554408494 📍 Cairo, Egypt 🔗 LinkedIn 🐙 Github

PROFILE

Passionate **MERN Stack Developer** with hands-on experience in building scalable and user-friendly web applications. Skilled in **MongoDB, Express.js, React.js, and Node.js**, with a strong foundation in **REST APIs, authentication, state management (Redux Toolkit)**. A problem-solver who thrives in dynamic environments, delivering efficient and maintainable solutions.

PROFESSIONAL EXPERIENCE

Frontend developer

Rentup Egypt

05/2025 – present
zamalek, Egypt

I had the chance to work as a **Frontend Developer at RentUp Egypt**, and it was such a valuable experience!

- I got to work on real-world projects
- Improved my technical and communication skills
- Collaborated with a great team that pushed me to grow

External Instructor

Information technology institute

05/2025 – present

- Mentored and evaluated students' technical progress, offering feedback and support for continuous improvement.
- Guided students in building full-stack projects and deploying them, simulating real-world development environments.

Front-End Instructor in Syntax Academy

05/2024 – 11/2024

- **Conducted Training Sessions** – Delivered structured lessons on front-end technologies, including **HTML, CSS, JavaScript, React, and UI/UX principles**.
- **Mentored Students** – Provided guidance, code reviews, and support to help students grasp complex front-end concepts.

INTERNSHIP

MEARN Stack Developer Trainee

Information Technology Institut

11/2024 – 04/2025

- Completed an extensive, industry-oriented coding bootcamp specializing in MERN Stack (MongoDB, Express.js, Angular, React, Node.js) development, focusing on practical, job-ready skills
- Built expertise in front-end technologies (React) and back-end development (Node.js, Express.js), covering debugging, testing, and deployment processes.
- Created full-stack web applications using modern frameworks and libraries, implementing RESTful APIs and managing databases with MongoDB

EDUCATION

Tanta University

Bachelor's Degree in Business Information Systems (BIS)

GPA: 3.69

09/2018 – 07/2022

PROJECTS

Social Media Platform 📄

Technologies: HTML, CSS, JavaScript, Bootstrap, Firebase Authentication, Firebase Real-time Database, Firebase Storage

- Implemented **user authentication** (Register, Login, Logout) and **profile management** (profile & cover images, bio, personal details).
- Enabled **post creation** with text, images, sharing, likes/dislikes, saving, and favorites.
- Developed **social interactions**, including following/unfollowing, writing on friends' profiles, and viewing followers.
- Integrated **real-time chat** with friend search functionality for seamless communication.

- Built an **intuitive search system** to find friends and explore connections.

Liva E-commerce

- Built a **full-stack e-commerce platform** using **React.js** (frontend) and **Node.js, Express.js, MongoDB** (backend).
- Secured authentication and authorization with **JWT**.
- Managed **global state** using **Context API** and ensured smooth navigation with **React Router**.
- Integrated **AXIOS** for API communication and database operations.

Netflix Clone

- Developed a **Netflix-inspired web app** using **React.js** with a responsive UI built in **Bootstrap**.
- Managed **state efficiently** with **Redux Toolkit** for seamless data handling.
- Implemented **Google Authentication** with **Firebase Authentication** for secure login.
- Used **Firestore** as a real-time database for user data storage.

Saraha app

Technologies: Node.js, Express.js, JWT, MongoDB, Mongoose, Nodemailer, Joi, Multer

- Developed a **scalable and secure backend** for an **anonymous messaging application** using **Node.js, Express.js, and MongoDB**.
- Implemented **JWT authentication** to safeguard user data and ensure secure access control.
- Designed and deployed **RESTful API endpoints** for managing messages and user authentication.
- Integrated **Nodemailer** to automate email notifications, improving user interaction.
- Used **Joi** for robust input validation and **Multer** for handling file uploads efficiently.

Quran app

Developed a feature-rich **Quran web application** using **HTML, CSS, JavaScript, Bootstrap, and a RESTful API**, providing users with a seamless and interactive experience.

- **Complete Quran Access** – Browse and listen to all **surahs** with high-quality audio.
- **Tafsir & Interpretation** – Explore detailed **explanations** for each **surah and verse** for deeper understanding.
- **Advanced Search** – Easily find **any verse** and retrieve the corresponding surah.
- **Islamic Reading Topics** – Access a collection of valuable **Islamic discussions and insights**.
- **Prayer Times & Azan Alerts** – View **accurate prayer times** based on your location via the **Azan tab**.

SKILLS

Front-End: HTML, CSS, JavaScript , TypeScript, sass, JQuery , Bootstrap, Tailwind CSS, Axios ,React.js, React Router, Redux toolkit, zustand , React Query, Material-UI, Nextjs.

Back-End: Node.js, Express.js, MongoDB, Mongoose, MVC architecture, GraphQL , RESTful APIs, JWT, WebSockets, Socket.io , Firebase, SQL, Mysql, sequelize.

Tools & Other: Git & Github , Postman, Swagger, Problem-Solving

UI & UX: Photoshop, Adobe xd, Figma

COURSES

Frontend React diploma in Route Academy

03/2024 – 08/2024

- **HTML, CSS, and JavaScript:** Fundamentals of web development, responsive design.
- **Bootstrap & Tailwind CSS:** Creating visually appealing and mobile-friendly UIs efficiently.
- **React.js:** Building dynamic and interactive web applications using components, props, and state management.
- **Redux Toolkit:** Managing complex application state
